

# LIPSPEAKER UK

## Expert Lipreading Services

Want to know what has been said when voices are inaudible?  
Ever considered how much information is read through body language and micro-expressions?

Our lip reading services are led by expert lipreaders with years of proven experience.

UK and International Services offered in English.

### Live Translation:

- Coverage of an important event when you need to know what has been said even when sound quality may be poor or the spoken word is deliberately lowered; The Royal Wedding for example.
- A person who is unwell possibly following an operation, with no voice.

### Video Translation:

- Get ahead in business by having your competitors comments revealed. Want to know who is saying what about you and your company?
- A panel at a conference for example who talk off mike.
- A wedding video where the microphone wasn't switched on.

### CCTV Translation:

- Of any investigation or surveillance. If the face is clearly visible we can tell you what was said even when there is little or no sound.
- Hidden cameras for example when background noise makes it impossible to hear what has been said.

---

### Areas covered:
